BANGOR DAILY WHIG AND COURIER.

BY SMITH & SAYWARD. WEDNESDAY, JANUARY 25, 1854. VOLUME XX.....NUMBER 177.

Bangor Daily Whig and Courier.

IS PUBLISHED

Over the Kenduskeag Market, at Five Dollars a year payable half yearly in advance. All subscriptions for less than a year to be paid in advance; and all arrears for discontinuance must be accompanied by the amount due.

The BANGOR COURIER is published at the office of the Daily Whig and Courier, every Tuesday morning, at One Dollar Fifty Cents a year in advance, or Two Dollars if not paid in advance.

The publishers will not hold themselves responsible for any error that may occur, beyond the amount charged for the advertisement.

Mr. V. B. PALMER is agent for these papers. Advertisements left with him will be immediately forwarded.

McFarland's BURGLAR and FIRE PROOF SAFES

THE undersigned would respectfully call the attention of the public to the above unequalled safeguard of property—proof against the devouring elements of fire, as well as the most skillful burglar. To MERCHANTS, JEWELLERS, and BANK BUREAUX, we would only say, examine them and the proofs, and you will be convinced of their superiority over all other manufactures.

Our business is done on a plain straightforward way without resorting to humbug or large talk.

Below is one of the many testimonials we are daily receiving from all parts of the country, and which speaks for itself. Messrs. Pond & Hitchcock's Old Store was situated directly under the Pearl-st House, and was totally consumed in the great fire of August, 23d.

NEW YORK, Aug. 25, 1853.

Messrs. Wm. McFarland & Co

Gents—It affords us pleasure to inform you that the Fire and Burglar Proof Safe we purchased of you, preserved our books and papers, at the disastrous fire of the Pearl-st House, last evening, in the most perfect manner. Although it was exposed throughout the fire with burning flames and red hot falling walls, and the safe was in the most intense heat, it remained true to its name and its caste its when taken out were not even scorched, and hardly been the smell of fire. We also join when can want of a superior Safe, a portable safeguard against fire we cheerfully recommend your manufactures. Having had a personal experience of their excellence. Yours, truly,

G. F. PONDS & J. R. HITCHCOCK

Our Depot, where an assortment of all kinds and sizes is constantly on hand, is at

33 Maiden Lane,

(two doors from NASSAU STREET.)

WM. McFARLAND & CO.

Agent at Bangor, HENRY BUTLER.

The Boston Journal.

Published Daily, Semi-Weekly, and Weekly.

TERMS.

DAILY, in advance.....Six Dollars a year.

SINGLE COPIES.....Two cents

SEMI WEEKLY.....Four Dollars a year

WEEKLY.....Two " "

JOURNAL FOR CALIFORNIA...Six cents per copy

The proprietors of the BOSTON JOURNAL, seem to be gaining ground upon the low price cash plan in the circulation of their paper, and have met with success beyond their anticipations. Convinced that this course is the most profitable to themselves, their readers, and their advertising patrons, they are determined to adhere to the system, and although the expenses of publishing a newspaper have increased enormously within a few years, the subscription and cash prices of the *Daily, Semi-Weekly, Weekly and California Journal*, will remain the same while no expenditures of money, time or labor will be spared to keep the Journal in advance of all its contemporaries, in every point which goes to make up a Live Newspaper of the present day.

THE DAILY JOURNAL,

Although furnished at the low rate of TWO CENTS a copy, contains MORE READING MATTER than any other daily paper in Boston. It is a public

Morning and Evening,

and either edition is sure to contain the VERY LATEST NEWS received by the Mails and Telegraph to the moment of publication. It is the determination of the proprietors to make it emphatically and in every sense of the word,

A NEWSPAPER!

and as such it will report and record the doings at all parties and stocks. It will give full and complete reports of the state of the Markets, a full and accurate Shipping List; changes at the Stock Exchange, and Money Article from a competent source. Full reports of the debates in Congress; able reports of all Lectures of interest; full and complete accounts of Public Meetings, with the best or reports of the speeches, when the occasion requires, &c., &c. Indeed, the reader of by Daily Journal may be sure of finding a record of everything of general interest which transpires either at home or abroad. By arrangements made to establish EXTENSIVE CORRESPONDENCE, and by a liberal use of the

Magnetic Telegraph,

the Journal will at a time be in possession of the LATEST News; and by the publication of a complete paper both

MORNING AND EVENING,

the proprietors are enabled to serve by

Every Mail and Express

who believes that by doing the first, they furnishing an news to subscribers in Boston and vicinity, the same is printed on the HOES CELEBRATED FOUR CYLINDER FAST PRESSES, capable of printing TEN THOUSAND AN HOUR, and we the little number in *ten or more until the latest moment*, and still supply the demand, however large.

As some evidence of the success which has attended the publication of the Journal, the proprietors would state that its circulation is now more than TEN TIMES AS LARGE as it was—and more than SIX TIMES AS LARGE as it was—periods of time and five years—and that it is seven times as large as the *day* any one paper during the last five years. Its present circulation is LARGER BY THOUSANDS THAN ANY SUBSCRIPTION OR TWO CENT PAPER PUBLISHED IN BOSTON OR NEW ENGLAND!

IT Either edition will be sent or mailed to any place at the rates mentioned above for any length of time the subscriber may wish. It is delivered by faithful carriers in all parts of Boston and adjoining cities, both Morning and Evening, and is for sale at the Periodical Depots and in all of the large towns and cities on the lines of the Railroads throughout New England.

TO ADVERTISERS.

Advertisements are inserted on fair prices, in clear type, set up in plain form style, and arranged under appropriate heads so as to attract the attention in the readiest manner. The great value of the Journal, as an advertising medium may be inferred from the fact that ALL ADVERTISEMENTS appear in both MORNING and EVENING papers without any EXTRA CHARGE! This securing to advertisers the benefit of two papers, at cost of one, and the

Largest Circulation

of any subscription paper in New England. Advertisements in the Weekly, Semi-Weekly or California Journal, will be subject to an additional charge for each paper.

THE SEMI-WEEKLY JOURNAL

is published Tuesday and Friday mornings at Four Dollars a year in advance. It contains all the reading and business matter of the Daily for three days, and is valuable for country circulation.

THE WEEKLY JOURNAL

is made up expressly for country circulation, and contains a vast amount of miscellaneous and news matter, reports of lectures, miscellanies. It is published every Thursday morning, at Two Dollars a year in advance, hand sensibly printed on good paper, with clear type. As

A FAMILY NEWSPAPER

it has enjoyed an enviable reputation during a long series of years. Its circulation throughout New England is very large and is constantly increasing.

THE JOURNAL FOR CALIFORNIA

is made up prior to the sailing of each mail steamer, expressly for Circulation in California, and is a welcome visitor to thousands who have left their homes in search of fortune in the Golden State. It is sent by mail, or sold at the publication office, at Six cts a copy.

IT All orders for either of the above papers should be accompanied by the cash, and addressed to the publishers,

SLEEPER & ROGERS,

JOURNAL BUILDING,

No. 12 State Street, Boston, Mass.

December, 1853 ed&d eow

PORTLAND ADVERTISER.

DAILY, TRI-WEEKLY & WEEKLY.

THE Publishers of the Advertiser, having recently, at great expense, made arrangements for the Daily publication of

Full Telegraphic News!

simultaneously with the Boston papers, would call the attention of all who are desirous of the

Latest Intelligence!

to the fact, that the Advertiser will publish every morning the same news by telegraph as will appear in the Boston morning papers of the same day. The Boston papers do not arrive in this city until noon of the same day, and, of course must be half a day behind the Advertiser in the same news, throughout this State.

Tolerated to the interest and usefulness of the Advertiser, the DAILY has been

MATERIALLY ENLARGED,

and the Publishers will spare no effort or expense to make it in every respect a first class newspaper.

TERMS OF SUBSCRIPTION.

DAILY ADVERTISER, $5.00 per annum, from which a discount of ten per cent will be made if paid in advance.

TRI-WEEKLY ADVERTISER, $3.50 per annum—if paid within the year, $3.25—if paid in advance $3.00. Two copies to one address, $5.50 in advance.

WEEKLY ADVERTISER, $2.00 per annum, from which a discount of ten per cent will be made if paid in advance.

No paper discontinued until all arrearages are paid unless at the option of the publishers.

AS AN INDUCEMENT TO CLUBS, AND FOR THE ADOPTION OF THE CASH OF ADVANCE PAYMENT, WE OFFER

The Weekly Advertiser

UNDER THE FOLLOWING TERMS:

Five copies, one year.....$8.00

Ten copies, one year.....12.00

Twenty copies, one year.....20.00

In which case the papers furnished to Clubs as a whole, will be sent to one address, must be paid in advance by in advance, and will be promptly discontinued at the expiration of the term of subscription.

Any person who may get up a Club of new subscribers, upon the foregoing terms, shall be entitled to an extra copy of the paper for himself, as long as the Club shall continue.

r21

Thrice Weekly Journal

FOR 1854.

DURING the approaching session of the Legislature, the undersigned will commence the publication of the Thrice-Weekly Journal, being Volume X of the same.

While the paper will be principally devoted to furnishing a correct Report of Debates and Legislative business generally, a fair share of attention will be given to Miscellaneous and News matter.

The peculiar elements constituting the Legislature, upon which depends the organization of the State government, and the election of an U S Senator besides bearing upon many other matters of importance, all go to render the session one of unusual interest.

The Thrice-Weekly Journal will be published on MONDAY, WEDNESDAY and FRIDAY mornings, alternating with the Thrice-Weekly Whig, and thus furnishing a Daily Legislative paper. The price will be ONE DOLLAR FOR THE SESSION, as usual—payable in advance.

IT It is desirable that the names of subscribers accompanied with the money, should be sent in a week at least, before the session commences.

W. H. SIMPSON

Augusta, November, 1853.

SEYMOUR'S GALVANIC

ABDOMINAL SUPPORTER.

THIS appears to possess all the mechanical advantages of the Abdominal Supporters in use, and also some valuable improvements besides the galvanic attachment. It has been tested, approved of, and universally adopted in the practice of all the leading Physicians in New York, Boston, and all other places where introduced, in the treatment of all Nervous diseases which exhibit themselves under so many different guises, and particularly in the cure of Uterine difficulties. The beneficial results which have uniformly attended the use of this instrument are a sufficient guaranty of its utility, and general application. The advantages of this over other Supporters are, it gives by its Galvanic action, pressure a smooth surface that does not retain heat or impurities which pass from the system, and can be kept pure and healthful.

The attention of the medical profession is respectfully solicited to an examination and test of the instrument. The above Supporters are for sale by GEO. W. EMERSON, Druggist, No 4 Smith's Block, sole agent for Bangor and vicinity.

Whig and Courier.

Teams of the South American Pampas.

The Buenos Ayres correspondent of the N. York Evening Post thus describes the teams used on the vast plains of that province:

"The products of the country, the great portion of which have been transported across the country in enormous ox-carts. These carts have been aptly termed 'ships of the desert.'—They are of the most primitive build. The wheels are from 6 to 8 feet high, clumsily and heavily made. The felloes will measure about 6 inches square—the hub is the trunk of a tree, with a hole through it, about six inches in diameter. On a heavy frame, mounted on two such wheels, a box body 8 feet, our feet wide, from ten to twelve feet long, and full or eight feet high. The body is a frame work, generally covered with hides, or thatched with rushes; sometimes it is weather-boarded.

These carts will take from two or three tons weight, for which is charged from 60 cents to $1 per 100 pounds for 100 miles. They are drawn by six or eight oxen, with one or two extra yoke following each team. The oxen draw by the head, not with a bow and yoke on the neck, as with us. A leather thong passes round the head of the animal at the root of the horns, leaving the yoke close behind the horns on the back of the neck. It is a question whether the ox labors easier in this way, than as yoked with us. I think not. He is, however, under greater control, a head being immovably fastened.

The arrangements for driving are of the most cruel kind. There is a large bamboo suspended, inside of the cart, from the top, sufficiently long to reach the leading team. To the end of this a sharp iron spike is fastened, with which the animal is goaded. Through a hole in the back of the cart, the driver can run the pole backward, until he can bring his spike to bear upon the nearer ox, with the exception of the first, for which he has a shorter spear.

We have here a practical illustration of our Lord's remark to Saul of Tarsus: "It is hard for thee to kick against the pricks," or ox-goads. Undoubtedly it was an instrument of this kind that was referred to.

Besides this, the driver has a club about as thick as a man's arm, and fourteen or eighteen inches long, with a hole through one end, slung on a leathern string, and hung to a nail in the yoke. With this, the driver, when sometimes sits on the yoke, between the heads of the first pair of oxen, beats them on the horns. This, is excessively cruel; the horns are frequently knocked off by the merciless blows.

These carts go on long journeys, occupying six and twelve months. On such journeys they go in troops of a dozen or more for mutual assistance and protection. They assist each other by uniting their teams to drag the carts over bad portions of the road. Sometimes it is necessary to attach ten or twenty yoke of oxen to a single cart. They can protect themselves when in a large company against the Indians. For this purpose, when they halt at night, they draw their carts into a close circle, all fronting the centre, in which circle they encamp. When on a journey they will travel from eight to ten leagues a day, with good roads.

Such is the method of transporting the produce of this country to market. Tedious and expensive and

Whig and Courier.

John S. Sayward Editor.

WEDNESDAY, JAN. 25, 1854.

☞ SEE FIRST PAGE. ☜

☞ The Bangor Democrat finds it very convenient, in its opposition to the success of the Whig party and in the extension of the interests of the Locofoco party in Maine, to quote from the Skowhegan People's Press, where it often finds something suited to its purposes. We should feel very unpleasantly and suspicious of our case as the conductor of a Whig press, to be thus quoted against the action and interests of the Whig party and the Whig press.

It may be profitable for the managers of the People's Press to read the following from the Portland Advertiser, which, at the present time, is forcibly instructive:

A FABLE WORTHY OF ATTENTION.

We would commend the following fable to the careful attention of those Whigs in this State, to whom the "Wilmot" policy can speak pleasant words just at this time:

"Likewise Omar Ibn Abd Bashr relates that Ali, the commander of the faithful, upon whom the Peace of God, one day harangung the People and being interrupted by their clamors, descended from the Tribune and began to speak thus: 'These People, O Omar, and myself lie in the same case with the three Bulls, one white, the other red, and the third black, which lived in a jungle together with a Lion. Whenever the Lion attacked one of these three Bulls, they, by uniting their forces, repulsed him, so that he was unable to devour them. But one day the Lion said to the black and red Bulls, 'The color of the white Bull will some day cause us to be discovered to the jungle in which we dwell. If you would suffer me to do so I would eat him up, and thus we should remain securely concealed, for no one would be able to discover us, seeing that your color harmonizes with mine, and mine with yours.' The two bulls closed their eyes to what was going on, and the Lion having devoured the white Bull remained with them and when he sought to attack them, they united together against him. Then turning himself to the red Bull the Lion said, 'This black fellow will bring disaster upon us, for his color attracts the eye. Contrive, therefore, to leave him alone and I will eat him up, and then you and I shall remain here in safety, for the color of my hide resembles yours, and yours and mine are the same.' Accordingly, the Black Bull was forsaken by the red one day and slain by the Lion who lived but a short time in peace with the survivor, until one day he called out to him,—'O! red Bull, I am come to devour you.'—'You to devour me?' replied the Bull. 'And the Lion replied, 'I, myself.' 'Stood there no help for it, then,' exclaimed the unfortunate animal, 'at least wait till I have cried out three times.' The Lion thereupon drew back, and the Bull cried, 'Not to-day, not to-day doth he slay me; he slew me when he devoured the white Bull; he slew me when he devoured the white Bull; he slew me when he devoured the white Bull.' 'Even thus,' continued Ali, 'was I lost on the slaughter of Othman;' and thus he repeated three times.'—[Solwan, on Water of Comfort.

When "Wilmot" politicians in this State approach a Whig, saying, 'this black fellow will bring disaster upon us, for his color attracts the eye—contrive, therefore, to leave him alone, and I will eat him up, and then you and I shall remain here in safety, for his *color and hide resemble yours*,' that Whig may be very sure, if he yield to his request, that he will soon hear the cry, 'I am coming to devour you—and his last reflections shall be like those of the red bull!'

THE LEGISLATURE.—No business has been done in either 'branch,' since the order was passed by the House for taking the opinions of the Supreme Court. The seven Senators still lie "in solemn, silent coil," for an hour or so each day, and then adjourn to their dinners while the House is equally patient in awaiting the report of that commission. Senators notice of the decision of the Supreme Court. The seven Senators have it in their power to start their wheels at any time, if they will only comply with the request of the constitution, and report upon *all* the vacancies "as soon as may be"—a right to do which they have unanimously claimed! The House awaits the action of the Senate elect—and has in unwhisk asked the opinion of the Court as to its own ultimate powers.—Augusta Journal.

Let the people bear the fact in mind that the seven Senators of the Wilmot stripe by simply discharging the duty imposed upon them by the constitution, the office they holding for which they receive pay of robbing existing vacancies in the Senate and the constitutional candidates for filling them, could start the wheels of government at any hour. They at first said they had not the time to do it, but sufficient time has been wasted to have done the work fifty times over. Why is it not done? Mr. Robinson the Senator elect from Penobscot has revealed the whole matter in his declaration that they would not dare because it would give a temporary political advantage to the Anti-Slavery forces. The Wilmotites wished this advantage and they have not scruples to obtain it at whatever cost of time, reputation, waste of the people's treasure and the honor of the State. Let the people remember this.

☞ A Boston correspondent of the Bangor Democrat tries to find an apology for the action of the seven Wilmot Senators in failing by referring to the course of the Senate in Massachusetts.—The cases are very dissimilar. In Massachusetts there was a quorum and consequently an organized Senate, while in Maine there is not a quorum and consequently no Senate but merely a convention of Senators elect. There can be no old or comfort, no excuse or justification for the Maine Senators, obtained from the action of the Massachusetts Senate. The cases are not parallel but widely different.

☞ On the 21st. inst., there was a terrific tornado in Ohio, by which the town of Hamilton was almost entirely destroyed, scarcely a house being left to mark the site of the place. Dr. Wheaton was seriously injured, and another man also badly hurt. The tornado extended about half a mile in width, tearing up everything in its course. The full extent of the damage we have been unable at present to learn.

☞ There are many speculations now as to the state of affairs in Europe. Should a peace be agreed upon between Turkey and Russia and affairs settle down into permanent quiet, the money and the skill of the world will be directed to commercial, mercantile and industrial pursuits as the active leading idea. Should a general European war ensue money will flow rapidly to the United States, prices will advance and speculation will put its pigeon wings in great shape.

☞ The Kennebec Journal states that Chief Justice Shepley has summoned the associate Justices of the Supreme Judicial Court to meet him at Portland on Monday for the purpose of considering the constitutional questions submitted by the Legislature.

☞ The Damariscotta river was open on the 16th, and had been closed one week previous.

Thomas H. Benton's Great Work.—This is 15 years in the Senate, from 1820 to 1835.

This great work, which will give a history of the working of the American government for thirty years, in which have been settled many important questions and measures, is in the course of publication by Messrs. D. Appleton & Co., of New York. The work will be published in two volumes, the first volume will contain, about seven hundred pages in double columns on a large octavo, good paper and handsome type, and embellished with a portrait of Senator Benton.

The price of the first volume, which is soon to be issued, will be two dollars and fifty cents. Mr. Whitney the agent for this section of the country, is now in this city for the purpose of obtaining the names of subscribers, and has deposited at the bookstores of Wm. Bartlett, Jr. on East Market square, a prospectus with a specimen of several pages of the work, and a pattern of its size and general appearance after it shall be completed.

The character and reputation of the publishers, the Messrs. Appleton & Co., are a sufficient guaranty that the whole work will correspond with the specimen, and they propose to dispose of the work in no other way than through subscriptions, nor to change the price of the work. Several of our citizens the best place to judge of the value of such a work have already subscribed, and we confidently expect that a large number of the copies will be disposed of here. There is an advantage in that the first volume, being the story down to the close of the administration Gen. Jackson, will be a work complete in itself, to that period, and the purchase of it will not necessarily involve the purchase of the second volume.

The prospectus will remain at Mr. Bartlett's bookstore until the first day of February, and those who intend to secure an early copy of the work, of which over fifty thousand copies are already subscribed in the country, should add their names to the list before the expiration of the time named.

☞ The Bangor Democrat finding the arguments of our representative J. B. Hill rather too strong for successful attack, cunningly dares to the extension of his religion to some of the illustrations introduced into the speech, disconnected from their legitimate point, and then charges all the speech as wanting in dignity and power. Mr. Hill's speech was a strong and grounded argument independent of the illustrations, but with them it was one of remarkable force and as a campaign document in the Bangor hamlet the delivery was strongly marked as shot after shot, like the discharge of a Colt's revolver, sped unerringly to its mark.

There is a large force engaged in the present time in building rock and frame and in laying the foundation for the railroad bridge across the Penobscot, from Oldtown to Milford, for the extension of the Bangor and Oldtown Railroad. This is a heavy job, but Gen. Wessler and Mr. Harris are putting it through quietly and in good shape.

☞ E. Jarvis Freeman the great "Oyster man" in Portland, has been treating the country editors with a hand each of his fine bivalves. His teams have returned East, and Captain Thomas Jackson, the eccentric, of this city, is expected to bring orders to feed all of our professional Crockett's in waiting patiently for his return.

☞ A correspondent has sent us an exhortation on the subject of death. It is of the general character of ordinary impromptu rhyme in conferences and prayer meetings—very good and appropriate there, but hardly such reading as would be interesting in a daily secular paper, and we can therefore decline its publication.

☞ The Oxford Democrat switches very handsomely the Wilmot Senators elect, for their malign and undemocratic course, in contracting the wheels of government, in the hope of gaining a temporary political advantage.

☞ The weather, crisp, straight along and quiet, as the Canadians say. The sleighing is excellent, and lumbering work is pushed forward vigorously. It is a critical time for those who wish to pay us by hauling wood, to do so.

☞ The New York Herald says that Mr. Roots is now in New York, in a state of uncertain destination. He left a boy in care of John T. Smith, of the Reading Room, when in Boston, who has not since been called for.

☞ From the Washington Pioneer, of Dec. 3, we learn that a man by the name of Raymond, formerly of Gardiner, Maine, was killed at Port Madison, Puget's Sound. He was engaged in cutting cut a pole and while cutting off one that had been fallen, it broke sooner than he expected, killing him instantly.

☞ P. I. Mills, Esq., has been appointed an agent of the Mechanics Association in reference to the purchase of a building of a convenient public. He and to report whether it is expedient to undertake the work as a corporation or by the issue of stock.

☞ Ice cracked upon the transporting of the foreigners on the day their was a rise of one dollar on flour. The rise in England was to nearly most amount and the market boyant.

☞ A correspondent of the Boston Atlas writes the Gov. Stanard is preparing an elaborate report on the commerce of the Pacific, including the subject of the Sandwich Islands.

☞ The Oil cloth of the Customs of Portland has seized two hogs and sheep skins brought from St. John, N. B., and consigned to Belfast, for a violation of the revenue law.

☞ A picture will be delivered before the Mechanic Association on Friday evening next. Seats free and members are requested to take their families and friends with them.

☞ The pulpit of Bath are to have a steamboat to run from that city to Boston the next season.—The boat is being built at Philadelphia.

☞ The N. Y. Independent, one of the ablest and most sensible religious newspapers in the country, has been enlarged and its form changed to that of a quarto. It is in the columns of this paper Chas. Henry Ward Beecher gives to the world many of his sermons. We think not, that has any we select with.

Law Decisions in the Supreme Judicial Court of Maine.

[Reported for the Age in advance of the regular publication.]

County of Penobscot.

BANGHER vs. PARKER. Upon a note for money payable at a future pay-day, when by an entire sum or by instalments, "*with interest to be paid annually*," the interest which may have accrued in any year, may be recovered, if sued for before the pay-day of the principal.

In a suit brought upon a note payable by instalments with interest annually, and declaring for the principal and interest, no interest upon interest is recoverable, unless the suit be commenced before the pay-day of the last installment.

J. & M. L. Appleton, for the plaintiff; *J. A. Peters*, for the defendant.

County of Kennebec.

BAILEY & al. vs. McIVERS & al. In a suit brought before a justice of the peace upon a poor debtor's relief bond the plaintiff cannot recover, if it appears that subsequent to the breach, he received and endorsed upon the execution all the means of payment which the debtor had when the bond expired.

Drummond, for the plaintiffs; *Heath*, for the defendants.

County of Cumberland.

SAWYER & ux. vs. GOODWIN. It is only in the *form* of declaring, and not in any *matter of substance*, that the R. S. c. 115, § 13, has abolished the distinction between *trespass* and *case*.

An allegation of breaking, and entering into land, is of *substance* and not of form merely.

A count, containing no such allegation, but framed technically in *case*, for injuries done to land, or in *trespass de bonis* for goods taken from it, cannot be sustained by merely proving an unlawful entry.

Nor can a declaration in trespass *quare clausum*, alleging *immediate* acts of injury to land, be sustained by merely proving an injury, *consequentially* resulting from acts done upon other land.

To such a declaration, an amendment, introducing a count, *framed as in case*, alleging the damages to have been *consequential*, is not allowable.

Shepley and *Dana* and *Ayer*, for the plaintiffs; *Seavey*, for the defendant.

☞ The foreign correspondent of the National Intelligencer says:

"The general opinion in Paris was that Europe was on the evening of a tremendous war. The Austrian minister in Paris is said to have declared that it is impossible for Austria to remain passive and permit the Emperor of Russia to proceed in a career of ambition which would be fatal to the balance of power in Europe and to the interests of Germany. Spain is represented as being in a bad condition. The treasury is completely empty, the best military men, Narvaez, Zaratiego, and Concha, are either in exile or otherwise in disgrace; and her best informed civilians have been removed from office because they would not vote against their consciences. At the present moment, with the richest soil and the finest climate in the world—washed by two seas, and every way favored by nature—Spain could not obtain a loan in any European market, or even obtain sufficient capital to construct her system of railways.

LUDDER AND FORTLAND BARKER, Kenny, Clark & Brown have 200 hands employed in getting out pine timber up the St. Francis. The season thus far has been favorable to their operations. Week before last they hauled a million feet into the ice ready to be floated down in the spring.—The pine, we understand, proves more abundant than was anticipated, and of superior quality.

The new saw-mills, recently erected in Sherbrooke by Mr. Brooks, is nearly ready to go into operation. It will be capable of cutting from twenty-five to thirty thousand feet of boards per day.—Sherbrooke Gazette.

Professor Lyell suggests that at some future day the Mediterranean may be a gulf, and the waves and tidal currents of the broad Atlantic ocean will encroach upon the shores of the Campania. Should this ever be the case, the wondering geologist will then behold the towns already buried, and many more which will doubtless be entombed hereafter, thrown open to his view in the steep cliffs. He will discover buildings superimposed above each other, with thick intervening strata of tuff or lava—some disclosed by fire like those of Herculaneum and Pompeii, and others half melted down as in Torre de Greco. Among the ruins will be seen skeletons of men and impressions of the human form stamped in solid rocks of tuff.

The whole number of arrivals in the United States from the East Indies during the year 1853 were 193. Of this number 89 vessels arrived in Boston, 96 in New York, and 8 in Salem. The number of clearances were 83—46 from Boston, 28 from New York, and 9 from Salem.

The French Canadian Missionary Society have recently succeeded in procuring the services of three French evangelical ministers from France and Switzerland, and five or six missionary school-masters, for the missionary labor among the French population of Upper Canada.

In New Hampshire there are 186 Congregational preachers; the Baptist and Methodists follow next, and are about equal. Of Episcopalians there are 11 churches and 8 rectors.—Of Universalists there are 22 clergymen, of Unitarists, just half as many; Roman Catholics, 1.

☞ As Mr. Griffith, an aged citizen of South Berwick, was riding through North Berwick on Tuesday last, his horse took fright and ran, throwing Mr. Griffin from his sleigh and so badly injuring him that he died soon after.

☞ The awards of the jurors of the Crystal Palace Exhibition are announced. The whole number of silver medals awarded is 106; bronze, 1186. Number of exhibitors who receive honorable mention, 1210.

A New Orleans despatch of the 17th, says that Forbes Allison, a merchant of that city, and President of the St. Andrews Society, has absconded, and is a defaulter to the amount of $40,000.

The Independent Democrats in Congress are about to issue an address to the country, setting forth the objections to the Nebraska bill, and appealing for help to defeat it.

☞ To the Ladies.—Hurd's Golden Gloss, for the hair, is a preparation which has no equal. It is highly perfumed, and imparts the fragrance of the most delightful bouquet. It makes the hair soft, glossy, and amazingly, and causes it to grow luxuriantly, preventing it from falling off or turning grey. It removes dandruff, prevents eruptions forming, and keeps the scalp clean, smooth and healthy. It has cured nervous and sick headache by a single application. Ladies can learn its value in the respect will never be without it. Price 25 cts. W. C. HURD, Proprietor, 304 Broadway, New York. S. R. PERKINS, Agent, Bangor. Jan 7m

Dr Moses's Invigorating Cordial, The daily sure and safe Remedy, yet discovered, for General Debility, Physical Prostration, Impotency, and all the various train of Nervous Affections; it will also restore Appetite, Excitement Double of Energy, incapacity for Study or Business, Loss of Memory, Mental Depression, &c., &c.—See Advertisement.

W. B. PALMER,

American Newspaper and Advertising Agent, is the only authorized Agent for this paper in Boston and Philadelphia. He is also our Agent in New York.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

FROM CALIFORNIA.

NEW YORK, Jan. 24th.

Steamship Northern Light arrived at nine o'clock this morning bringing San Francisco dates to the 31st of December.

She brings three hundred passengers, $847,381 in specie on freight and a large mail.

The Brother Jonathan passed the Sierra Nevada 12 miles outside San Francisco with New York dates of December 5th.

The Northern Light left San Juan at midnight of the 16th. When near Cape Hatteras came in contact with the schooner Sarah Ann of Brewer Me., from New York for Wilmington, N. C. The schooner sank. Capt. Pinkham and crew arrived safe.

The Captain of the Northern Light saw on the Florida reef 20 miles from Cary's Fort Light a large brig ashore, which had just gone on. The wreckers were bearing down to her.

The Mail steamer Oregon left San Francisco on the 31st, with one hundred passengers and $660,000 in specie on freight.

The Pacific arrived at San Francisco on the 18th of December from San Juan del Sud.

The John L. Stephens arrived on the 15th from Panama.

The Brother Jonathan for San Juan sailed at 6 o'clock, on the afternoon of the 31st.

The Oregon sailed for Panama on the 31st at 3 o'clock, P. M.

Politicians are busy in speculating upon the course of the Legislature, which was to meet on the 2nd instant, in regard to the Senatorial question; removal of the capital; stamp act; extension, and some other proposed measures very interesting to individuals.

In Klamath Valley, there is a very strong feeling for the formation of a new State to reach from the Umpqua Mendocino. The present population may be ten thousand.

There is some excitement prevailing on the subject of the land speculation practiced under the school land warrants, issued by the State.

The farmers are sowing a great deal of wheat, particularly in the Southern portion of the State, which is now beginning to prosper as a farming country.

Superintendent Beale is at the Tejon reserve, and has his Indians busy in putting in large fields of grain and small vegetables. He has thirty ploughs going.

The Indians pretend to be highly pleased with the home chosen for them and the treatment they receive.

It is reported that companies to reinforce the filibusters are in the course of formation at several points in the State.

The surveying party sent out by the Railroad Convention who examined the Sierra Nevada at the head of the Stanislaus, have reported that there is a practicable pass there. All the Pacific railroad parties have arrived. The Engineers speak highly of the Southern route, and the general opinion in the State is in its favor.

Lieut. Park has started overland, by the Gila route for Washington.

There has been some difficulty with the four tribes of Creek Indians.

The weather has been delightful during the past fortnight, with the exception of one or two days of rain.

The miners are very much disappointed, there being far from enough water to fill the canals, or to permit washing in the small gulches. The dry weather has driven the miners to work in the banks, which in some places have been found to be very profitable.

The news from Klamath mines a very favorable.

New diggings have been found on one of the eastern head branches of the Sacramento.

Great numbers of Chinamen have gone to Shasta, and the miners are talking of rising to expel them. There is a growing feeling that some legislation will be necessary to define more clearly the rights of mining companies.

SAN FRANCISCO, Dec. 31st.

On the 17th news arrived that the filibusters will manage to maintain themselves at Encenada. A good deal of excitement prevailed, but there has been no aid sent to them since the Anita left.—Reports are in circulation that another vessel is being fitted out, but it is doubtful since public opinion and the press are disposed to consider the expedition and its objects as criminal, not only by the letter of the law but likewise by its spirit.

The export of gold for the year as nearly as can be ascertained from the Custom House returns was $67,873,086. The total product of the mines during the five years ten months and a half since the discovery is estimated at $260,000,000.

The arrivals of passengers by sea during the year as known by the Custom House records have been 35,454 and the departures 30,316. The population having thus increased 5,860. During this year 1028 vessels of 555,794 tons entered this harbor and 1091 vessels of 626,[illegible] tons cleared, being an increase of 22 per cent over the previous year.

San Francisco claims to be the second commercial city in the Union. A couple of very large auction sales of water property belonging to city and state were made on the 26th and 28th. The property brought about 1,650,000 dollars.

A German society to encourage emigration had been formed.

The works for the fortification of the harbor had been commenced on Alcatraz island and Fort Point. The former position will have forty guns. The works on Lime Point opposite Fort Point have not been commenced.

The Welsh Presbyterians are about to build a church in which the services may be conducted in their own language.

The San Francisco Herald reports that commercial affairs for the fortnight had been gloomy. The demand from the interior had fallen off, and was very limited. Gold dust was falling off. The importations continued heavy, nearly all the leading staples declined, and closed with prices nominal.

Nine ships had arrived from the Atlantic cities, heavily laden.

Hazall and Gallego flour was selling at 12,75 to 13,00; eastern oats three five eighths cts; domestic Wheat 3 1-2 to 3 1-4c; Adamantine Candles 24 to 24 1-2; half bbls clear Pork 14,75, clear Bacon 14,60; Boston crushed Sugar 11 1-8c.

LOWER CALIFORNIA.

We have dates from Ensenada to the 16th. The accounts received are very contradictory. All agree, however, that the filibusters were besieged in the adobe house by about one hundred Mexicans and Indians from the 6th to the night of the 16th, when, there being cold rain falling, the filibusters attacked the chaised and drove besiegers, who fled, leaving arms, horses, a small field piece and all their camp equipage. The filibusters then having robbed and pillaged the natives. The Anita had not arrived. She was seen off San Pedro on the 21st and would probably arrive at Ensenada about 25th. It was expected that immediately on her arrival a descent would be made on San Tomas.

OREGON.

Dates are to the 24th December. The Legislature met on the 5th of December. Ralph Wilcox, President of Council. L. C. Bishop, Speaker of the House. The proceedings are unimportant.

Some papers are advocating proceedings looking to the speedy formation of a State government, preparatory to admission into the Union. The population is 50,000.

NEW YORK MARKETS.

NEW YORK, January 24th.

TO THE AFFLICTED

GOLDEN'S GALVANO ELECTRIC CHAINS These Chains are recommended by all the first Physicians in Europe as a speedy and certain cure for Rheumatism and all Nervous Complaints. Gentlemen in this city have testified their benefit from the use. The simplest bound on free effect the best. For sale at S E PARKINS', on Kenduskeag Bridge. if

"The Glory of Man and the Crown of Woman."

Who was more glorious or more beautiful than to see a rich, luxuriant head of hair on either man or woman? And when those rich tresses on woman begin to decay by disease, how important that we have some preventive or cure. There are a thousand different preparations brought into use, purporting to prevent hair from falling off, or causing a new growth when the head has become bald but all of little or no use, and very often injuring the diseased roots more than doing them good. But there is one article which has recently been discovered in New York, which will prevent hair from falling out, and is guaranteed to produce a good growth of hair on heads that have been so bald. We have one case in Boston of an elderly lady who first used it and who is willing to certify to the truth of the above. And to induce people to try it, the Wholesale Agent of Bangor offers for a reasonable sum to guarantee a good head of hair on any one who will try it thoroughly, in three months time, or no charge for the article. Now, come one, come all, it costs you nothing to try it. The preparation is called HURD'S HAIR RESTORER. Read the following certificate from a gentleman well known in this city, as well as New York.

NEW YORK, Dec. 2 1853.

Mr Hurd—Dear Sir—I have been bald for the past five years, and always my father's and grandfather's family were bald at an early age, it was considered hereditary, and thought impossible to procure new hair on my head, and tried every thing failed; and I was induced to try your Hair Restorer. I commenced using it about six weeks ago, and where my head was then bald it is now covered with a vigorous growth of new hair, and there is no doubt it will produce hair on any bald head.

Yours truly,

C. FARAND,

Daguerreotype, 305 Broadway

BROWN'S BRONCHIAL TROCHES:

For the alleviation of Bronchitis, Hoarseness, Coughs, Colds, and similar Affections of the Throat.

THESE Lozenges are prepared from a singly celebrated recipe for alleviating Bronchial affections, possessing peculiar properties which relieve hoarseness and render the voice smooth and clear. Public Speakers, Singers and other persons suffering from Affections of the Throat, Hoarseness Colds of longer or shorter duration or other impediments of the voice will find these Lozenges efficacious in allaying any irritation of the Bronchial tubes, whether produced by Cold, Influenza, or any unusual exertion of the Vocal Organs, in speaking or singing.

Prepared by JOHN I. BROWN & SON, Chemists, 425 Washington, (opposite Lincoln) St, Boston.

Messrs JOHN I. BROWN & SON

Gentlemen—A knownledge of the manner in which the various articles of the Materia Medica were combined by you to form the 'Bronchial Troches' led me, thirty or ten years ago, to adopt the remedy. The results have been such as to induce me to continue the practice, relying upon them of great benefit in many affections of the Bronchial organs. Yours, etc

J. W. LANE, M. D.

Boston, Sept 1st, 1853

Boston, August 30, 1853

Dear Sir—Your Bronchial Troches seem to me a simple and elegant form for administering in combination several medicinal substances said, in general esteem among physicians in the treatment of Bronchitial affections.

Very respectfully, SAM'L BIGELOW, M. D.

Albert T. Brown, Esq., 425 Washington street

For sale by INGRAHAM & FULLER, Druggists Bangor. Jan24

New Brig for Sale.

Now on the stocks, of 240 tons, carries 165 feet on deck, about 28 feet foot 4 feet beam—well calculated for the Southern Pine business—built of part White Oak and Hard Pine, the frame put up in July last—She is well sheathed, and her work will compare with that of any one built on the river the past year. She will be ready for sea as soon as the ice is out of the river.

Any person desirous of purchasing a vessel of this class are requested to call and examine, and judge of her excellence for themselves.

NEWSPAPER ARCHIVE®

FOR SALE:
Bark Gold Hunter.

This Bark was built at Bangor—is four years old and is now discharging at Norfolk from her second voyage from Cuba.

She was built under the eye of her present owner and no pains or expense, either in materials or workmanship, were spared in her construction.

Her dimensions are 101 feet on deck, 25 feet beam 11 feet hold, and measures 28 tons. She is copper fastened and copped to the heads in the spring of 1852. She is a good sailer, having made her first passage home from California in 105 days.

Those wishing to purchase a vessel of her class will find it for their interest to examine her where she lies.

DR. HARTJONS

VEGETABLE TINCTURE!

The Great Restorative and Invigorator of the System.

This article, which has done so many wonderful cures, was discovered by Dr. Isaac Hartjons, of Louisville, Ky., now in the full bloom of his age, and is acknowledged by the most who have used it to be the best tonic in medicine in use, and is warranted free from a mineral substance. By its mild action on the stomach, liver and kidneys, it will cure the diseases of these organs, and all Chronic Complaints such as *Dyspepsia, Cough, Asthma, Bronchitis, Lung Affection, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Female Bowel Complaint, Worms, and Venereal Debility,* with all diseases arising from impaired Blood. As a Female Medicine it has no equal. It will change and complexion from sallow to a blooming one.

Green Mountain Vegetable
CEMENT.

BROKEN China, Glass, Earthen Ware, and Fancy Articles of every description repaired and mended, using it as strong as before broken, without injuring the appearance.

This Cement, which has been proved to be of great strength, will be found a precious article in every family; the simple manner of its application is a sufficient recommendation. The adhesive property which it possesses is so wonderful that many things will stand the break in a fresh place than where they have not been used with it. The variety of purposes for which it may be used are so numerous that it would be difficult to recite them. It succeeds in mending Glass, China, &c., in a manner so ordinary, no one, a degree of skill affecting it, and as the joints are scarcely perceptible, articles of Bijouterie may be made use of for years, which otherwise would have been cast away.

☞ Dealers, Merchants, and others, supplied on the most favorable terms, by

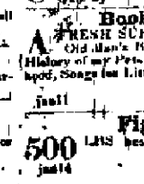
Horse-keepers, look at this!
Admirable Invention!

PATENT SELF HEATING
SMOOTHING IRON!



MANY important improvements have been made in the beginning of the present century, relieving and facilitating the labor of men in machinery, and other mechanical implements, but in all these there has been much neglected with the tailor, excepting the *Patent Self Heating Smoothing Iron*, which will relieve them in a very great degree, from the tedious and fatiguing labor of *Ironing*, besides saving a great saving of time and expense. This Iron combines economy, comfortableness, saving of labor, and despatch; one dollar's worth of fuel will last an entire day, for any one day's constant ironing. Hard wood chips from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' irons are constructed upon the same principle, and possess equal superiority.

For sale, wholesale and retail, by the subscriber, who is the only Agent for Penobscot County.

ALBERT NOYES.

Bangor, Dec 6, 1853

THE GREATEST

MEDICAL DISCOVERY OF THE AGE!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple.—He has tried it in over eleven hundred cases, and never failed except in two cases, both of the humor.) He has now in his possession over one hundred certificates of a value, all within twenty miles of Boston.

Two bottles are warranted to cure a purulent sore mouth.

One to three bottles will cure the worst blotches, pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure scaldy pimples on the ears and blotches among the hair.

Four to six bottles are warranted to cure ringworm and running shoulders.

One bottle will cure scaly eruptions of the skin.

Two or three bottles warranted to cure the worst case of ringworm.

Two or three bottles are warranted to cure the worst dandruff.

Two or three bottles are warranted to cure the worst dandruff.

Three or four bottles are warranted to cure the worst case of scrofula.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing less than simply to those who have tried all the wonderful inventions of the day, as that a common weed, growing on the pastures, and along old stone walls should cure every humor in the system, yet it is true. Just for you have a humor it has to start. There are no nor studs, bumps nor boils about it, nothing some disagreeable spot, pores. I meddled every thousand things of it in the vicinity of Boston. I know the effects of it in every case. It has already become one of the greatest cures ever done, in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wrinkled sinking children, where flesh was not, and flabby restored to a perfect state of health by one bottle.

To those who are subject to a stiff, weak, aching, one bottle will always cure it; if it gives great relief in asthma and dizziness. Some who have taken it have been cured for years, and have been regulated by it. Where the body is inclined to poor, it gives quite easy but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone you will feel yourself like a new person. Heard some of the most extraordinary testimonies of it that ever was heard of.

OLIWAY & WADLEIGH, Lewiston, Maine, General Agents for New England, and exclusive Agents for New Hampshire, to whom all orders should be addressed.

C. W. ATWELL, Portland, General Agent for Maine. Sold in Bangor by G F Sargent, Patch & Lewis, Saml E Perkins, Ingraham & Fuller, Guild & Harlow, and Dr. H. Kimball, and Druggists generally.

Bangor, July 25. 3m1

Winter Arrangement.

COMMENCING DECEMBER 12, 1853, TRAINS will run in connection with Trains on the Grand Trunk Railway, as follows:

Leave Waterville at 4 40 and 11 30 A. M., arriving in Portland in season to connect with trains for Boston.

Returning—Leave Portland at 7 15 A. M. and 1 30 P. M. arriving in Waterville at 10 45 A. M. and 5 35 P. M.

Freight Trains each way daily.

In connection with the above, Trains are run by Kendall's Mills—Pittsfield and Kennebec Railroad—leaving Waterville on the arrival of each train from Portland. Returning leave Kendall's Mills for Waterville and Portland, at 8 A. M., and for Waterville only at 3 15 P. M. Freight trains leave Kendall's Mills for Waterville, at 3 15 P.

Through tickets for sale between all the Stations on this Road and the principal stations on the Eastern and the Boston and Maine Rail Road, and Lowell. Passengers by either train arrive in Lowell same day.

Through tickets for Bangor, by Shaw's line of Stages from Waterville, are sold at Eastern depot in Portland, at $3 75. Passengers in Coupe or Drawer, for Bangor, will procure tickets for Waterville, and receive from Coupe or Drawer Road a ticket for Bangor, on payment of $1 25. Stages connect with trains at Waterville for all the principal towns East and North.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, . . Boston.

IMPORTANT INFORMATION TO INVENTORS. The subscriber is an Agent of the U. S. Patent Office, under the Act of 1837, determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements whereby on application prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid here by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Inventors, Specifications, Amendments, and all necessary papers and drawings, for procuring patents in the foreign countries prepared, and advice rendered, on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Are referred to Washington.

R. H. EDDY,

Solicitor, of Patents.

"During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, I had business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in form, to secure for them as early and favorable consideration of the Patent Office as any other agent.

EDMUND BURKE,

Late Commissioner of Patents

Patent Office.

"R. H. Eddy, Esq., Boston, Mass.

Sir—Your facilities for the prosecution of any business connected with this office, are equal to those of any other agent. I am very respectfully, your, &c., THOMAS EWBANK,

Commissioner of Patents

Boston, Sept. 1853 3tawd&w one mo

NUMBER ALTERED.

NEW ENGLAND TRUSS MANUFACTORY,

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Ratchet and Spiral Trusses,

533 (opposite 516) Washington Street, 533.

BOSTON, MASS.

ALL the various approved TRUSSES constantly on hand.

Ladies visited upon by Mrs Caroline D Foster, who has had twenty years' experience in the business.

He will keep a full supply of ready-made Trusses for Gentlemen and Ladies, Youths and Infants.—Abdominal Supporters of five or six different kinds, such as Hulls, Chapin's Spiral, Cutter's, Finch's, Ingalls', &c. &c.

TESTIMONIALS.

The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but will not forever.

Boston, Jan 15, 1835.

Having on occasion to observe that some persons affected with Hernia, have suffered much from the want of a proper truss, I have in recommending Trusses to the peculiar care of their cases, I have taken pains to inform myself of the comparative merits of the various truss, the defects very occasioned by the death of Mr. Beale.—After some months of observation of the work, I am well satisfied that Mr. Foster is well instructed with the manufacture of these instruments, and can recommend him to the notice of cases of such nature.

Yours, &c. JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the invalids consideration of those who are unfortunately afflicted with Hernia, Mr. James Frederick Foster, as a skillful and competent person in the body fitting and fitting of Trusses. We have employed Mr. Foster for over twenty years, and therefore speak from personal knowledge of his abilities. His party as vouchers, has long experience in the business, and the large number of individuals whom he has relieved in a variety of cases, render him, in our opinion, equal, if not superior, to any manufacturer of the trade. His father, Dea. Gideon Foster, of Charlestown, was master of the business in that town for upwards of twenty-four years, during which period Mr. Foster served himself in the apprenticeship, and made application of Trusses to great variety of cases, with great success, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss, that the great excellence consists in a adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a Truss, but none but a skilful practitioner can apply it to such a variety of formality, and adjustment, as necessary in the complaint.

Our experience has convinced us of Mr. Foster has thoroughly acquired this knowledge. The certificate of Dr. J. C. Warren, and other eminent surgeons, which he has shown to us, fully sustain the opinion we here express.

Dr. Fomroy's Opthalmic Ointment OR EYE SALVE,

is the Remedy which Cures Sore and Weak Eyes. Read the following.

F. W. N. Crouch, Professor of Music, Portland, used Dr. Fomroy's Eye Salve for a severe affection of the eyes, and by a few applications they were restored to their former strength and soundness.

Mr. H. K. Hinkley, Pearl street, has used the celebrated Eye Salve in his family, and says that it exceeds all other preparations for affections of the Eye—such as Sore, Weakness of the Eyes, &c., &c.

Mr. W. H. Dodge, Market Square, Portland, was troubled with an affection of the eyes for years, and was entirely cured by Dr Fomroy's Opthalmic Ointment of Eye Salve.

Mr. Walter Wells, Principal of the Academy at Augusta, used the soothing preparation for severe inflammation of the Eyes, and was entirely cured by two or three applications.

Mr. Andrew Motz, Elm's wet, Portland, was cured of a severe case of Inflammation and Obstruction of the Eye by the use of Dr. Fomroy's Eye Salve, for a few days.

Mr. Tickey, Fore street, Portland, has used Dr. Fomroy's Eye Salve for his grandchildren, who are troubled with an affection of the Eye, Weakness, &c., and says it has greatly relieved her.

Many more such cases as the above might be adduced to show the efficacy of this excellent salve, but we leave it to those who have used it to extol its merits and spread abroad its fame.

PRICE 25 CENTS PER BOX.

DYER Stawd&w1w

DR. MORSE'S

Invigorating Cordial,

Phenomenon in Medicine,

Health Restored & Life Lightened by

Dr. Morse's Invigorating Elixer, or Cordial.

For centuries, Medical science has been ransacking the vegetable and mineral kingdoms in search of something that should restore the lost or decaying energies of the nervous and muscular systems, without the drawback of subsequent prostration, which all stimulants, tonics and narcotics had heretofore entailed.—That something has been found. It is a vegetable production brought from the sterile deserts of Arabia the Stony, by the celebrated Professor A. Morse, well known as a distinguished member of the leading scientific societies of the Old world, and equally distinguished as a physician, a chemist and a traveller. The price of this herb, concentrated and combined with other vegetable medicinal extracts, are now producing results astonishing mankind, in the world of science, which are perfectly unexplainable.

The ELIXER, restores, in all cases, the dissipated cells arising from the misuse or abuse of the various means which are the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble muscular tissue, or debilitated vital power, it is recommended as the only means of combining calling that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the failing wife, the listless, enervated youth, the live young man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this phenomenon of revivation. To those who have lost confidence in themselves, it will prove a complete and unfailing safeguard against dangerous malady. There are many, perhaps, who have so often trifled with their constitutions, that they think themselves beyond the reach of medicine. Let such try these drops. The Elixer heals wounds as a balm, without reference to causes, and will soon restore to health the disorder itself, but

REBUILD THE BROKEN CONSTITUTION.

The derangements of the system leading to nervous diseases, and the forms of nervous disease are so numerous that it would require a volume to enumerate the maladies for which this preparation is a specific. A few instances, may be enumerated, viz.—neuralgia, tic doloreaux, headache, incipient paralysis, epileptic fits, palpitation of the heart, spinal affections, muscular debility, tremors, dizziness, ringing in the head, mental weakness, forgetfulness, weakness of the will, indisposition to move, dullness, other mental troubles, sleeplessness and terrifying dreams, nightly pollutions, pain in the back, weakness of the reproductive organs, sexual incompetency, melancholy, monomania, hypochondria, sinking at the stomach, female irregularities, a chronic tendency to discharge, constipation and all complaints growing out of a loss or abstinence of the passions, and all derangements that have proceeded from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or structural diseases it is a sure cure.

MORSE'S INVIGORATING ELIXER

Will replace weakness with strength, inactivity with efficiency, irregularity with uniform and natural action, and thus not only without harm of reaction, but with the happy effect on the general organization, generally that all stimulating, or excitable agents have been the unfortunate means, of not the premature of death. Bear in mind, also, that for every kind of nervous disease the Elixer Cordial is the only remedy, and should be used by one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered few would be taken if their composition was known. Their life consists in their mystery. I have no mysteries.

The composition of my preparations is known to all men, and all who are competent to judge of the subject, freely acknowledge their excellence of their intrinsic merits. The Cherry Pectoral, pronounced by scientific men to be a wonderful medicine for its effects upon consumption, Pleurisy, Bronchitis, have defined its virtues in my Pills, and even more clearly, and no wonder in every that their virtues were more than realized by their effects upon the sick.

They operate by their powerful influence on the internal viscera to purify the blood and convert it into healthy action—remove the foul obstructions in the stomach, bowels, liver, and other organs of the body, restoring their natural action to health, by correcting wherever they meet with disorders, and are the first origin of disease.

Being sugar coated they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For full directions, see the wrapper on each Box.

AYER'S PILLS.

A NEW and unusually successful remedy for the cure of all Bilious diseases.—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammation, Headache, Pain in the Breast, Side, Back and Limbs, Piles, Obstructions, &c. &c. Independently from the effects upon health, they are the most easy and pleasant purgative Medicine in use, being free from any unpleasant taste, and not requiring confinement or change of diet while under the influence of them. Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails, as the accumulation of impurities, which should be discharged from the system, generates serious and often fatal diseases, which might in a great measure be avoided by the timely use of a good purgative. This is admitted by the profession to be the most effectual purgative in use, and it is intended to become the purgative to be resorted to by families and those who find it difficult to procure the services of a physician. If however, there should be some who do not receive them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered few would be taken if their composition was known. Their life consists in their mystery. I have no mysteries.

The composition of my preparations is known to all men, and all who are competent to judge of the subject, freely acknowledge their excellence of their intrinsic merits. The Cherry Pectoral, pronounced by scientific men to be a wonderful medicine for its effects upon consumption, Pleurisy, Bronchitis, have defined its virtues in my Pills, and even more clearly, and no wonder in every that their virtues were more than realized by their effects upon the sick.

They operate by their powerful influence on the internal viscera to purify the blood and convert it into healthy action—remove the foul obstructions in the stomach, bowels, liver, and other organs of the body, restoring their natural action to health, by correcting wherever they meet with disorders, and are the first origin of disease.

Being sugar coated they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

Stawd&w1m

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient sufferers that almost every purgative medicine is so pernicious and irritating to the bowels. This alone. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. A brief direction for their use in the several diseases to which they are applicable are given on the box. Among the complaints they have been mostly cured by them, we may mention Liver Complaint, in its various forms of disease, Indigestion, Costiveness and Loss of Appetite, Dull sickness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Limbs, for, in truth, it is to be but the one purpose of diseased men from the liver. As an aperient, they are found a sure relief in Costiveness, Piles, Colic, Dysentery, Bilious, Scrofulous and Scurvy, Colds with soreness in the body, Ulcerated and impurity of the blood; in short, in every case where a purgative is required.

They have also produced some remarkably successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and by their stimulant action on the digestive system, renovate the strength of the body, and restore the wasted or disturbed energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists, but unnecessary doses should never be carried too far, as every purgative and cure reduced the strength, when taken to excess. The thousand cases which a physic is constantly to be enumerated here, but they suggest themselves to the reason of every intelligent reader. The above pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.

BEFORE CONTEMPLATING MARRIAGE,

should reflect that a sound mind and body are the most necessary requisites to promote conjugal happiness. In deed, without these, the journey through life here never wears, pilgrimage, the prospect hourly darkens the view the mind becomes shadowed with despair, and blighted with the melancholy reflecting that the happiness of another becomes blighted with your own.

PARENTS AND GUARDIANS

are often misled with respect to the causes and nature of diseases in their sons and wards. How often do they ascribe to other causes of wasting of the frame, misery, madness, palpitation of the heart, indigestion, derangement of the nervous system, cough and symptoms indicating consumption, when the truth is, that they have been imparting as a pernicious, though alluring practice, destructive both to mind and body.

CAUTION.

Dr. Morse's Invigorating Cordial has been counterfeited by some unprincipled persons.

In future all genuine Cordial will have the proprietor's fac-simile signature over the cork of each bottle, and the following words blown in the glass:—

"Dr. Morse's Invigorating Cordial. C. H. RING, Proprietor, N. Y."

IT The Cordial is put up highly concentrated in pint bottles.

Price,—$3,00 per bottle; two for $5,00, six for $15,00.

C. H. RING, Proprietor,

192 Broadway, New York.

Sold by Druggists throughout the United States, Canadas, and West Indies.

AGENTS.
